**Would You Like My Team Of Experts
And I To Personally Create A Unique,
High-Value Online Course FOR You –
Guaranteeing You A \$100k+ Net Profit
– Or Get **DOUBLE** Your Money Back?**

From the desk of James Francis.
San Diego, USA.

Dear Entrepreneur,

Over the last eighteen years, I've built a multiple seven-figure publishing company and helped clients generate over **\$100MM+** online from digital products and online courses.

One of the biggest lessons I've learned is that trading your time for money is a dead end.

Filling your calendar with 1:1 client sessions or selling low-priced digital products may cover a few bills, but it rarely leads to wealth.

Instead, the richest people in the world create **assets** – things that continue to pay them *long after* the initial work is done.

In my experience, the fastest and most beginner-friendly asset you can own is your own **online course**.

Once created, it's normal to wake up to four-figure sales while you're still in bed, because an automated system is selling your online course for you around the clock.

Better yet, it typically takes just a couple of hours per week to keep everything humming smoothly – so you can spend more time doing what you love and enjoy.

BUT...

If you've ever tried to build an online course on your own, you already know it isn't easy.

You have to choose a profitable topic, outline a curriculum, write scripts, record audio, edit videos, host your course, figure out how to sell it...

... and the list goes on!

Most people either feel overwhelmed or spend hundreds of hours doing all this work only to end up with a mediocre product that doesn't sell.

And if you aren't an "expert" on your topic, the process can feel impossible.

This leaves most people feeling overwhelmed by all the work involved and stranded without a lifeline.

And that's assuming you have the *hundreds* of hours of spare time required to get it all done in the first place!

Maybe you can relate?

You've probably already realized that nothing will change *until* you overcome this sticking point one way or another.

And, this kind of problem needs more than just a "one size fits all" video course or PDF to help you, because your online venture is ***unique*** to you.

So, how do you escape this "catch 22" situation?

Introducing Our NEW Done-For-You Service: Online Course Fast Track

For a limited time, I've just opened enrolment to a new done-for-you service I've called *Online Course Fast Track*.

In this premium service, my team of specialists, video editors, copywriters and I **create your entire video-based online course FOR you using the latest AI technology** – and then personally coach you to sell it so you make a **minimum of \$100,000 USD in net profit**, or we give you ***double your investment back***.

That's right: you'll end up with either a profitable course or twice your money back, guaranteed.

Here's why we created this...

Clients in our previous done-for-you service consistently made \$10k+ per month once their courses were live, but many complained about the amount of time it took to put everything together.

Recent breakthroughs in AI now allow us to build professional, human-sounding courses in days rather than months, so we wanted to give a small group of clients the chance to shortcut the entire process.

Instead of spending months wrestling with technology, you'll focus on sharing your ideas and approving our work while we do the heavy lifting behind the scenes FOR you.

In other words, instead of trying to build a house on your own from scratch with trial and error, you're just purchasing your completed dream house.

You'll get access to my entire *in-house* team of experts (which I pay over \$10k per month for), along with me personally as your

dedicated coach and lead project manager throughout the whole process.

This is by far the most transformational opportunity I've ever put together, and is only for three lucky people during this special offer – and we have no plans to repeat it again in the future.

At this point you probably have a few questions, but let's start with the obvious one...

Why Am I Doing This?

We've found our best clients are often *too busy* with their everyday life to do the work themselves – and often don't see any progress for a long time because of it – so they get the best results when they let us do the work *for* them.

Plus, a lot of our clients want to avoid making mistakes and want to ensure everything is done properly the *first* time around, so they can see success much sooner.

Then, when they achieve their dream outcome, we usually request they provide a *testimonial* of their results, which we often use to acquire more clients for our *other* programs. These are worth their weight in gold to us.

Not only that, but as an entrepreneur, I want to keep my workday interesting by profiting in more markets so I can better help my other coaching clients with their businesses.

The next question you probably have is...

How Am I So Confident?

Over the last five years of running our previous done-for-you service, we've had the pleasure of helping 34 different clients make a \$100k+ profit in 22 different niches.

During this time, we've learned a LOT about our business model, the most profitable niches, and what makes people buy online courses.

We've put all our findings into a proven 4-step process, which has now become our *Standard Operating Procedure (SOP)* for ourselves and all new clients.

By following this proven process, it's near impossible *not* to see a profit due to the way the math works out.

Because of this, we've had a **100% success rate** for every client who has done what we've asked of them.

Plus we love the look on our clients' faces when they wake up to 3-4 figures in sales in the morning before they've even had time to drink their morning coffee :-)

Another question you may have is...

What If I'm Not An Expert?

Most people wrongly assume you need to be a "guru" to create an online course. That simply isn't true.

Think about it: you didn't learn your first words from an English professor or learn to ride a bike from Lance Armstrong.

People are *desperate* for guidance from someone who's just a few steps ahead of them.

Plus, with the right AI tools (which we take care of for you), **you don't need to create the content, be the person on camera or read the script yourself.**

We'll create a unique methodology based on your chosen topic, create all the scripts and voice-overs, and even edit the videos to make sure your course sounds 100% human – your customers won't know the difference!

With that out of the way, now let's get into the full details...

Here's What Happens When We Decide To Work Together...

From day one, you **don't** need any ideas, products or technical skills.

Whether you're starting from scratch or you already have a course concept, here's how our four-stage process unfolds:

Stage One – The Scripts

- **Choose your topic:** We'll consult with you to pick a profitable niche and gather any insights you want us to include.
- **Research what works:** Our team analyzes your competitors to see what's selling right now, then crafts a compelling **unique methodology** so your course stands out in the market.
- **Outline & scripts:** We map out the curriculum and use enterprise-level AI to write word-for-word scripts for every course video. Unlike basic AI prompts, our editors proofread, format and polish each script *by hand* so it reads naturally.
- **Approval:** You'll review the scripts and request any changes. When you're 100% satisfied, we move on to the next stage.

Stage Two – The Voiceovers

- **Select your voice:** You can either clone your own voice (for better branding) or choose a high-quality pre-set AI voice. We'll guide you through the simple process of creating an account and recording a short sample (takes 10-15 minutes).
- **Produce the audio:** We upload each script into our AI voiceover software and generate lifelike recordings, which sound *indistinguishable* from "normal"/human voices.

- **Edit & refine:** Our team listens to every syllable, fixing mispronunciations, awkward timing or glitches until the audio sounds like a natural human.
- **Approval:** You review the audios and give your approval on the work we've done for you so far before we proceed.

Stage Three – The Videos

- **Generate scenes:** Using the latest AI video tools, we combine your scripts and voiceovers with relevant stock footage and subtitles to create engaging videos for each lesson. This means you don't need to appear on camera, create slides or edit anything yourself.
- **Fine-tune:** We manually replace any low-quality or irrelevant clips, synchronize everything and optimize the subtitles.
- **Export & review:** You receive the finished videos to review and request any tweaks. Once approved, we provide all the course content in a Google Drive folder, for you to upload into an online course platform of your choice (we recommend Thinkific, which has a free plan).

Stage Four – Guaranteed \$100k+ Net Profit

Creating a course is only half the battle – you also need to sell it.

That's why every Online Course Fast Track client gets **lifetime access to my Elevate™ coaching program (normally \$2,997)**.

I'll personally coach you step-by-step to set up your marketing funnel, build an email list, launch automated webinars, run organic and (optionally) paid traffic, and optimize until you hit a **minimum of \$100k in net profit**.

And, we won't stop working with you until you achieve the guaranteed \$100k net profit.

In the worst case scenario, if you implement what we teach and for any reason don't make the \$100k net profit minimum, we'll happily refund **double your investment**.

This whole machine will just need about 10-30 minutes of tweaking per day after that – and even then, I'll coach you on what to do until you're 100% confident with how to use everything.

I hope you'll agree that's not too shabby for a \$10,000+ per month income.

Your Responsibilities

Your total “work” in this project is less than one hour:

- Create AI accounts (10–15 minutes).
- **Optional:** Record voice samples (10–20 minutes) if you want us to clone your voice.
- Review and approve our work at the end of each stage (15–30 minutes).

We handle everything else.

You also keep full ownership of the course and all associated intellectual property, and you keep **100% of the revenue**. We don't take any royalties.

Now for the million-dollar question (quite literally)...

When Can I Expect To See Results?

Obviously this is a VERY premium offer which takes up a lot of my time and effort – and my entire team's time and effort too – with a very sought-after outcome.

(As you know, \$100k+ income streams don't get handed out on a platter every day!)

Although our lawyers say we legally can't give you a specific time frame, it typically takes just *3-4 weeks* to complete your entire online course.

(Definitely much faster than the usual 2-3 months doing it yourself!)

After that, most clients start seeing their first sales as soon as they launch their course.

Many reach \$1,000+ per month in the first couple of months and \$5,000+ per month by month 4-5.

The majority hit \$10,000+ per month within the first 6-12 months.

After that, we'll continue working with you until you hit at least \$100,000 USD in net profit.

Even after this goal is achieved and the service ends, if you want to, there's an option for you to continue having us run the business for you – ensuring your income stays above \$10,000 in profit every month, and even grows beyond that to \$20k+ per month, \$50k+ per month and more, if that's something you want to do. But that's totally optional and is up to you.

And remember, if for some weird reason the online income stream doesn't earn you at least \$100,000 USD in net profit after following our advice, you can either continue working with us for free until you do, or we'll give you *double* your money back.

It'll all be legally-binding with a contract, so you're guaranteed to get what I promise by law.

This way, you risk nothing, and walk away with a profit either way. The risk is all on us to deliver the goods.

Regarding your investment...

Here's How Much It Costs When You Decide You Want My Team To Create A Profitable Online Course For You – And *Guarantee A \$100k+ Net Profit*

After reading this far, you'll know this VIP service is life-changing. While nobody else in our industry is doing this, similar services are currently selling every day for upwards of \$50k for *just* the sales funnel – nor do they guarantee your results.

But we really want to position ourselves as the pioneers of our industry and get glowing new testimonials, so you *won't* have to pay that...

To celebrate this new launch, we're offering a **Special Introductory Price to the first three people who respond.**

The total cost for everything – the “deep dive” niche research being done for you, the course video scripts being created for you, the voiceovers being done for you, the videos being done for you, ongoing consulting and more – all uniquely created and optimized to make you a *legally guaranteed* \$100,000 USD in net profit, *PLUS* \$10,000+ USD in net profit per month thereafter, is *usually* one payment of just \$7,997 USD.

BUT – for our Special Introductory Offer, we're giving you a limited-time **\$5,000 discount** – meaning we'll build a \$100k+ per year online course FOR you for a one-time payment of just \$2,997 USD.

Yes, that is a great price. And yes, this means it only takes \$2,997 to make you a minimum of \$100k in net profit, legally guaranteed. *Plus* you'll graduate from the service with a minimum \$10,000+ per month income stream to *live your dream life*, without needing to struggle with a 9-5 anymore.

While most of our clients usually pay in full (sometimes across multiple cards if necessary), don't worry if you'd love to get in but can't physically make the payment all at once – we can arrange to split it up over 12-24 months via Klarna if you're a US resident with a regular income.

If not, we can also provide other payment plan options starting at just \$500 per month *without* needing credit or financing. It'll work out more expensive than the other options, but at least you'll get in.

I'm deliberately keeping the price very fair for everything you'll get, because I know that once you have this successful online income stream, you'll be a customer for life and hopefully use some of your earnings to join our other, more advanced programs.

(Most of our business has always come from repeat customers.)

Remember, you risk absolutely nothing here, as we'll send you \$5,994 USD (giving you a \$2997 profit even if this fails) as your double-your-money-back refund if it doesn't work out for some reason – all guaranteed with a legally binding contract. There is literally zero risk.

Whether you're ready to get started now or not (e.g. health issues, moving house, etc), you can also claim this special offer today and pause your time in the service at any time of your choice (even if it's right at the beginning or halfway through) for up to two years.

And if you're wondering, the only other additional costs will be for the software you'd need to run a \$10k+ per month online course whether you were working with us or not, which totals no more than \$100 USD per month, only required just before you launch.

You also won't need to set aside a budget for paid advertising, as we primarily focus on organic (free) methods in this service. However we can optionally use paid advertising at any budget that suits you, if you want to accelerate your results.

As you can imagine, the demand for the three spaces in this NEW done-for-you service on my 120,000+ strong email list is currently VERY high, and at the massively-discounted investment I just mentioned, all three spots will get snapped up very quickly.

But as usual, fortune favors the bold...

This Could Be Your *Last Chance* To Get In. Here's Why...

We're only enrolling **three clients** at this introductory price because each project requires over **200 hours** of manual work from our team.

Once these spots are filled, we'll either raise the price or close enrolment entirely. If you want us to build a profitable online course for you at the lowest investment ever, this is your chance.

And if you're wondering...

Here's The Catch You've Been Looking For

It's pretty simple.

We can't (and won't) work with just anyone.

So we can be a good fit for each other, there are a few house rules...

1) You must not ask me to create something unethical.

So if you're into selling porn, gambling, "get rich quick" type offers or anything illegal, this opportunity isn't for you.

I only work with ethical people who actually want to help their customers and make a positive difference in the world.

2) This isn't really suited to all business types.

Because most of the campaigns are built around the latest

direct-response principles, the offer you'd like to create and sell needs to be your own video-based online course.

(That's how we get results quickly with minimal effort.)

So if you're doing affiliate marketing, dropshipping, selling physical products on Amazon or your grandma's panties on eBay, this opportunity probably isn't for you.

Ready to get started?

Here's What To Do Next...

If you're interested in securing your own unique online course and \$100k+ net profit before the price goes up...

Step #1 – [Complete the short form on this page](#) to request our new client agreement for this service at the discounted rate. Once submitted, it will be sent to you *automatically* (even if it's 2am!) by Dropbox Sign (the company we use to sign agreements securely online) within just 2-3 minutes. The email will look something like this:

Step #2 – After clicking the blue “Review & Sign” button, you can read the agreement for yourself, in your own time. It *doesn't* contain anything weird, and there *isn't* anything designed to “trip you up” –

it just has everything I've just explained to you in writing, as promised.

Step #3 – If you'd like to secure one of the remaining spots at the discounted rate – *and* including the \$100k+ net profit guarantee – simply sign the agreement and complete the secure section at the bottom for payment, including options for wire transfer or debit / credit card – even splitting it across multiple cards if necessary.

As soon as you sign and we receive the payment, we can begin within just a few business hours.

Speaking from experience, the three available spaces in this service will be snapped up quickly, so I'd recommend doing this now before you miss out.

[Here's the link again to get started.](#)

Thanks for taking the time to read this, and I'm looking forward to working together soon.

Hope to talk with you soon!

James Francis

Founder & CEO, Digital Prosperity.

P.S. This offer is VERY limited due to the amount of time and resources it takes to build a \$10k+ per month online course. If you want to get started, [request the new client agreement here ASAP.](#)
